or (613)234-0516

The internationalization of IP continues unabated. The decisions made in one jurisdiction – both in filing strategies and in litigation – may affect IP rights in other jurisdictions. Realizing this, and coordination amongst counsel, is key to avoid unintended outcomes.

We have an unmatched roster of speakers for this year's meeting, with leading Canadian, American, European and Asian speakers drawn from private practice, corporate practice and government.

Program subject to change.
